TO William Stokes
FROM Dene Fletcher Stuart

Please!! Go beyond the current efforts regarding the Draize test, by developing and validating NON animal methods to completely replace the use of the Draize test! It is possible now to replace the death-tests those helpless rabbits have suffered for FAR TOO LONG —

PLEASE, again, stop the awfully sad, painful action of Draize tests on those helpless, poor rabbits — MOST SINCERELY

April 8, 2005 Dene Fletcher Stuart
