

**Subject:** SENS-IS assay

**Date:** Saturday, November 16, 2013 12:36:22 PM Eastern Standard Time

**From:** Hervé Groux

**To:** NIEHS NICEATM

Dear Sir,

ImmunoSearch has developed an assay based on toxicogenomic analysis of reconstituted 3D epidermis. I saw that you are looking for information on skin sensitization assay development. However I could not download the document : <http://ntp.niehs.nih.gov/iccvam/SuppDocs/FedDocs/FR/FR-2013-27095.pdf>

Therefore I do not know exactly the amount and type of information on these development you would like to receive.

I enclosed a brief summary of the assay as a pdf file.

I would appreciate if you could send me the support document of your announcement and tell me which kind of information you would like to have.

Looking forward to hearing from you

Best regards

Hervé Groux, DVM, PhD
